Weekly Seminar

Plasma medicine: past, present and future

Invited speaker:

Dr. Hossein Abbasi

Amirkabir University of Technology

Abstract:

This introductory seminar on plasma medicine is intended to provide a summary of the current status of this emerging field, its scope, and its broad interdisciplinary approach, ranging from plasma physics, chemistry and technology, to microbiology, biochemistry, biophysics, medicine and hygiene.

Wednesday, 9 Esfand 1396 (Feb. 28, 2018), 14:00-15:00

Seminar Room (classroom A), Farmanieh Building, IPM
